

State Street EUR Government Liquidity Fund - Z Shares

Fact Sheet
Cash Management

30 November 2024

Fund Objective

The objective of the Fund is to maintain a high level of liquidity, preserve capital and provide a return in line with Euro Government money market rates

Investment Strategy

The Investment Manager, on behalf of the Fund, combines a relative value approach (i.e. where an asset's value is determined by taking into account the value of similar assets, looking for those that are "mispriced" relative to each other and aiming at exploiting such pricing discrepancies for the benefit of the Fund) to investing with credit quality analysis (as described in the "Credit Quality Assessment" section of the Prospectus) to identify securities that it believes will provide the greatest stability of capital and the highest probability of repayment, consistent with the Fund's investment objective.

Investments will be purchased with the intention that they will be held until maturity although the Investment Manager may, in its sole discretion, not hold investments to maturity.

IMMFA Member

State Street Global Advisors is a member of the Institutional Money Market Funds Association (IMMFA), the trade association for AAA-rated European money market funds.
