

SPDR[®] Bloomberg Euro High Yield Bond UCITS ETF (Acc)

Fact Sheet
Fixed Income

December 2024

Fund Objective

The objective of the Fund is to track the performance of the fixed rate, Euro-denominated high yield corporate bond market.

Index Description

The Bloomberg Liquidity Screened Euro High Yield Bond Index includes fixed-rate bullet, puttable, and callable senior debt publicly issued in the Eurobond and index-member domestic markets. The maturity must be between one and up to (but not including) 15 years, and fixed-to-floating rate securities will not be included. The principal and coupons must be denominated in EUR and have a minimum par amount outstanding of 250 million.

Tax Status

As standard, SSGA aims to meet all applicable tax reporting requirements for all of the SPDR ETFs in the following countries. Applications are made throughout the year depending on the time scale required by each local tax authority: UK, Germany, Austria, Switzerland.

Countries of Registration

United Kingdom, Switzerland, Sweden, Spain, Norway, Netherlands, Luxembourg, Italy, Ireland, Germany, France, Finland, Denmark, Austria

Fund Information

ISIN	IE00020POLA0
Index Name	Bloomberg Liquidity Screened Euro High Yield Bond Index
Index Ticker	BEHLTREU
Index Type	Total Return
Number of Constituents	465

Key Facts

Inception Date	16-Dec-2024
Share Class Currency	EUR
Fund — Base Currency	EUR
TER	0.40%
Income Treatment	Accumulation
Replication Method	Stratified Sampling
UCITS Compliant	Yes
Domicile	Ireland
Investment Manager	State Street Global Advisors Europe Limited
Sub-Investment Manager(s)	State Street Global Advisors Limited
Fund Umbrella	SSGA SPDR ETFs Europe I plc
ISA Eligible	Yes
SIPP Eligible	Yes
PEA Eligible	No

Performance of the fund is not shown as the inception date of the fund is less than 12 months.

All data as at 30 November 2024, the latest available prior to the publication of this factsheet.

Characteristics

Number of Holdings	464
Average Maturity in Years	3.74
Effective Convexity	-0.18%
Effective Duration	2.51
Yield to Maturity	5.59%
*Distribution Yield	5.92%

* This measures the 12 month historical dividend pay-out per share divided by the NAV.

Capital Risk: Investing involves risk including the risk of loss of capital. Past performance is not a reliable indicator of future performance.

ssga.com/etfs

Glossary

Effective Convexity A measure of the curvature in the relationship between bond prices and bond yields that demonstrates how the duration of a bond changes as the interest rate changes.

Effective Duration A duration calculation for bonds that have embedded options. This measure of duration takes into account the fact that expected cash flows will fluctuate as interest rates change. Effective duration can be estimated using modified duration if a bond with embedded options behaves like an option-free bond.

Yield to Maturity The total return anticipated on a bond if the bond is held until it matures. Yield to maturity is considered a long-term bond yield, but is expressed as an annual rate. In other words, it is the internal rate of return (IRR) of an investment in a bond if the investor holds the bond until maturity and if all payments are made as scheduled.

Distribution Yield The Annual dividends per share (DPS) of the fund divided by the share price of the fund.

Delta A measure of equity sensitivity showing the relationship between a percent change in stock price and corresponding expected percent change in convertible price; it is also known as price elasticity.

TER Total Expense Ratio is a fee charged to the fund, as a percentage of the Net Asset Value, to cover costs associated with operation and management of the portfolio of assets.

For Professional Clients / Qualified Investors Use Only. Not for public distribution.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and ETF expenses will reduce returns.

Marketing Communication

SPDR ETFs may not be available or suitable for you. The information provided does not constitute investment advice as such term is defined under the Markets in Financial

Instruments Directive (2014/65/EU) and it should not be relied on as such. It should not be considered a solicitation to buy or an offer to sell any investment. It does not take into account any investor's or potential investor's particular investment objectives, strategies, tax status, risk appetite or investment horizon. If you require investment advice you should consult your tax and financial or other professional advisor.

Tax treatment depends on the individual circumstances of each client and may be subject to change in the future.

This document does not constitute an offer or request to purchase shares in SPDR ETFs Europe I plc and SPDR ETFs Europe II plc.

Please refer to the Fund's latest Key Information Document (KIID)/Key Investor Information Document (KIID) and Prospectus before making any final investment decision. The latest English version of the prospectus and the KID/KIID can be found at www.ssga.com. A summary of investor rights can be found here: <https://www.ssga.com/library-content/products/fund-docs/summary-of-investor-rights/ssga-spd-ers-investors-rights-summary.pdf> Note that the Management Company may decide to terminate the arrangements made for marketing and proceed with de-notification in compliance with Article 93a of Directive 2009/65/EC.

All fund related documents are available for free of charge from the offices of the Local Representative/Agent or by visiting the www.ssga.com or by contacting State Street Custodial Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

SPDR ETFs is the exchange traded funds ("ETF") platform of State Street Global Advisors and is comprised of funds that have been authorised by Central Bank of Ireland as open-ended UCITS investment companies.

The funds are not available to U.S. investors. SSGA SPDR ETFs Europe I plc and SPDR ETFs Europe II plc issue ("the Company") issue SPDR ETFs, and is an open-ended investment company with variable capital having segregated liability between its sub-funds. The Company is organised as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the laws of Ireland and authorised as a UCITS by the Central Bank of Ireland.

Climate Metrics

Climate Metrics		Fund
Weighted Average Carbon Intensity (WACI)	Weighted average CO2 emissions per \$1 m revenue	83.73
WACI Coverage	Weighted market value (%)	51.87%
	Number of Securities (%)	50.77%
Fossil Fuel Reserves	Weighted average embedded CO2 (millions of tons)	0.00
Brown Revenues	% of Revenue	0.44%
Adaptation Score (0-1)	Weighted average Score from 0 (low) to 1 (high)	0.53
Green & Climate Aligned Bonds	Weighted market value (%)	6.25%
Green Bonds	Weighted market value (%)	6.25%
Climate Aligned Bonds	Weighted market value (%)	0.00%
TCFD Carbon Metrics		Fund
TCFD Weighted Average Carbon Intensity (WACI)		67.55
TCFD Total Carbon Emissions**		38,848.64*
TCFD Carbon Footprint		63.82
TCFD Carbon Intensity		152.81

Source: State Street Global Advisors, S&P Trucost, FactSet, Task Force on Climate-related Financial Disclosures (TCFD). The results are estimates based on assumptions and analysis made by State Street Global Advisors. They are not intended to represent actual results of any offering. Actual results may differ. * The TCFD Total Carbon Emission metric allocates emissions to investors based on an equity ownership approach. In the case of commingled funds, the results represent the environmental responsibility of the entire fund's assets under management. For individual unitholder's responsibility, an apportioned responsibility can be calculated based on the individual holding percentage. ** The metric is not used to compare portfolios and benchmarks because the data is not normalised.

ESG Risk Rating Score

	Fund
ESG Risk Rating Score	19.05
Coverage (Market Value Percent)	40.87
Coverage (Number of Securities Percent)	38.63

ssga.com/etfs

Weighted Average Carbon

Intensity Measured in Metric tons CO₂e/USD millions revenues. The weighted average of individual company intensities (operational and first-tier supply chain emissions over revenues), weighted by the proportion of each constituent in the index.

Fossil Fuel Reserves (also referred to as Total Reserves CO₂ Emissions) Measured in Metric tons of CO₂. The carbon footprint that could be generated if the proven and probable fossil fuel reserves owned by index constituents were burned per USD million invested. Unlike carbon intensity and carbon emissions, the S&P Trucost Total Reserves Emissions metric is a very specific indicator that is only applicable to a very selected number of companies in extractive and carbon-intensive industries. Those companies are assigned Total Reserves Emissions numerical results by Trucost, whereas the rest of the holdings in other industries do not have numerical scores and are instead displaying "MARKET", blank values. In order to present a more comprehensive overview of a portfolio's overall weighted average fossil fuel reserves, State Street Global Advisors replaces blank results with "zeros". While that might slightly underestimate the final weighted average volume, it provides a more realistic result, given that most companies in broad market indices have no ownership of fossil fuel reserves.

Brown Revenue (%) Percentage of revenues from "brown" sectors, extractive sectors as classified by S&P Trucost

ISS ESG Adaptation Score The score uses the Position on Climate Change and Disclosure of Climate Change Risks and Mitigation Strategy metrics. The Position on Climate Change indicator evaluates the company's position on climate change. The company shall have a clear position, which refers to the scientific evidence of climate change, the company's responsibility

in this context and its commitment to contribute to the reduction of greenhouse gas emissions. The Disclosure of Climate Change Risks and Mitigation Strategy indicator evaluates whether the company assesses most important industry risks with regard to climate change, and whether it has respective adaptation and mitigation strategies in place. The company shall disclose and quantify all relevant industry-specific risks (as defined by the analyst in charge of the industry) with regard to climate change (e.g. physical, regulatory, market, cost or legal risks), and provide comprehensive information on its respective adaptation and mitigation strategies. Each company receive a rating between (1 - 4) for each of the indicator. If either rating Position on Climate or Greenhouse gas emission reduction target or action plan was missing, the company would not be rated for the adaptation score.

Green Bonds & Climate Aligned Issuers State Street Global Advisors (SSGA) seeks to identify qualifying securities according to the Climate Bonds Initiative Taxonomy (CBI). For historical back-testing, Green bonds are identified using Thomson Reuters Data and switched to CBI data when available. The Green Bond market aims to enable and develop the key role that debt market can play in funding projects that contribute to environmental sustainability. Even though some data providers propose a Green Bond label, there is no market consensus regarding the definition of Green bond. The International Capital Market Association proposed a set of guidelines with four components: 1. Use of proceeds, 2. Process for project evaluation and Selection, 3. Management of Proceeds, 4. Reporting. On 17th June 2020, SSGA partnered with CBI and joined CBI's partners network. The use of a 3rd party to assess the suitability of the Green-labeled bond label give us more confident in the use of proceeds. Due to the fairly concentrated nature of the Green bond market, the Climate strategy

includes also bonds that are labelled as "Climate-Aligned" Bonds. Climate-aligned bonds are bonds which CBI identify as financing assets and activities for climate change solutions. The climate-aligned bond universe is composed of: a) Unlabeled bonds from issuers that derive >95% of revenues from "green" business lines. Such issuers are defined as "fully-aligned" issuers b) unlabeled bonds from issuers that derive 75 -95% of revenues from "green" business lines. Such issuers are defined as "strongly-aligned" issuers c) labelled green bonds issued by green bond issuers. For more information on the CBI Taxonomy please visit: <https://www.climatebonds.net/standard/taxonomy>.

TCFD Weighted Average Carbon Intensity

- Portfolio's exposure to carbon-intensive companies, expressed in tonnes CO₂e / \$M revenue. Scope 1 and Scope 2 GHG emissions are allocated based on portfolio weights (the current value of the investment relative to the current portfolio value).

TCFD Total Carbon Emissions - The absolute greenhouse gas emissions associated with a portfolio, expressed in tonnes CO₂e. Scope 1 and Scope 2 GHG emissions are allocated to investors based on an equity ownership approach.

TCFD Carbon Footprint - Total carbon emissions for a portfolio normalized by the market value of the portfolio, expressed in tonnes CO₂e / \$M invested. Scope 1 and Scope 2 GHG emissions are allocated to investors based on an equity ownership approach.

TCFD Carbon Intensity - Volume of carbon emissions per million dollars of revenue (carbon efficiency of a portfolio), expressed in tonnes CO₂e / \$M revenue. Scope 1 and Scope 2 GHG emissions are allocated to investors based on an equity ownership approach.

Data and metrics have been sourced as follows from the following contributors as of the date of this report, and are subject to their disclosures below. All other data has been sourced by SSGA.
